

I-84 HARTFORD PROJECT

Local Street Connectivity
Working Session

Rebuilding a Better I-84 in Hartford

August 10, 2017

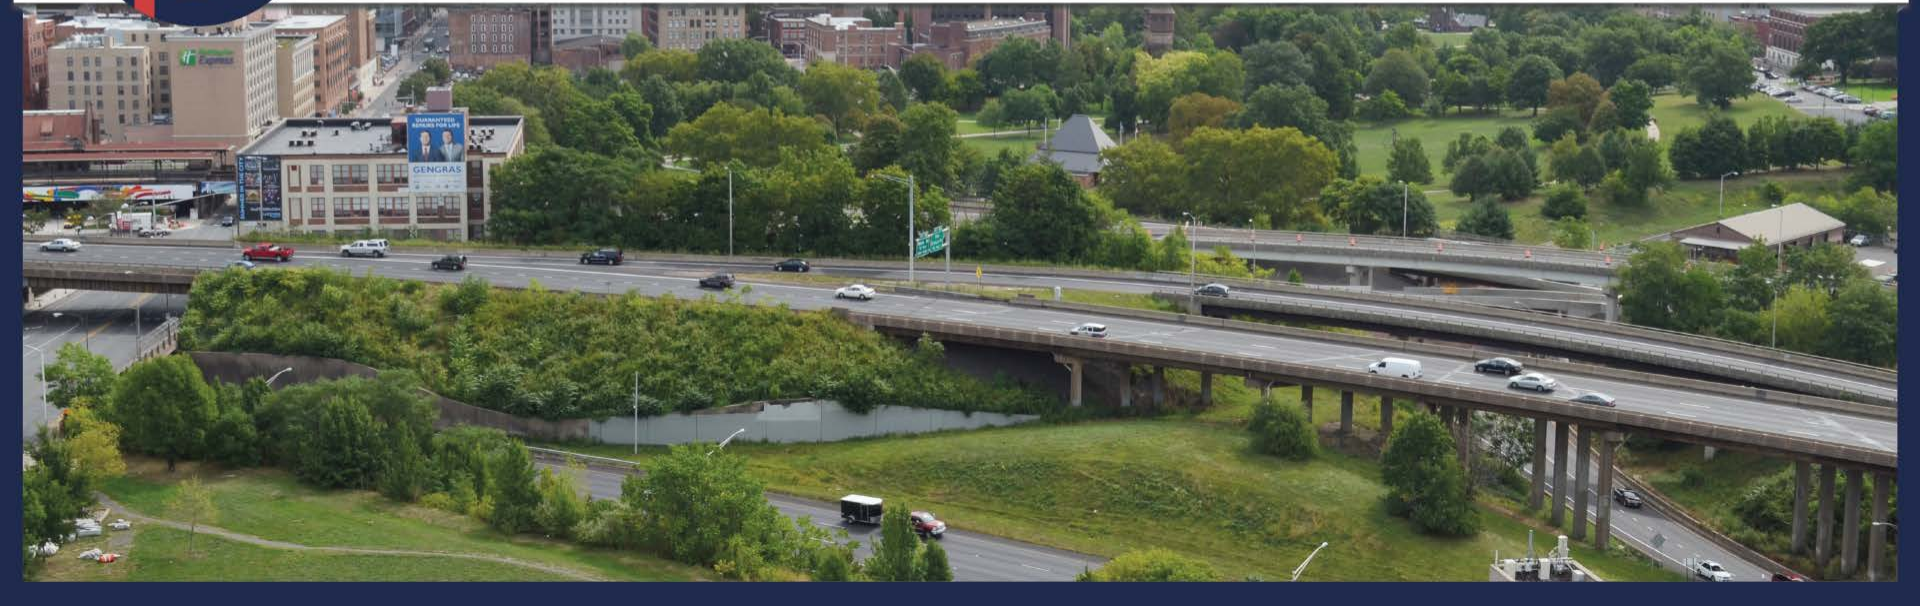

Meeting Purpose

- Discussion of PAC and public concerns about I-84 and local road / neighborhood connectivity
- Respond and refine alternatives as necessary

What Brings You Here Today?

What are your connectivity concerns in the I-84 corridor?

- Specific local street connections?
- Travel times between neighborhoods, locations?
- Location of overpasses?
- Quality of overpasses?
- Reducing visual impacts?
- Accommodating walking, bicycling, transit?
- Integrating the highway into the urban fabric
- Others?

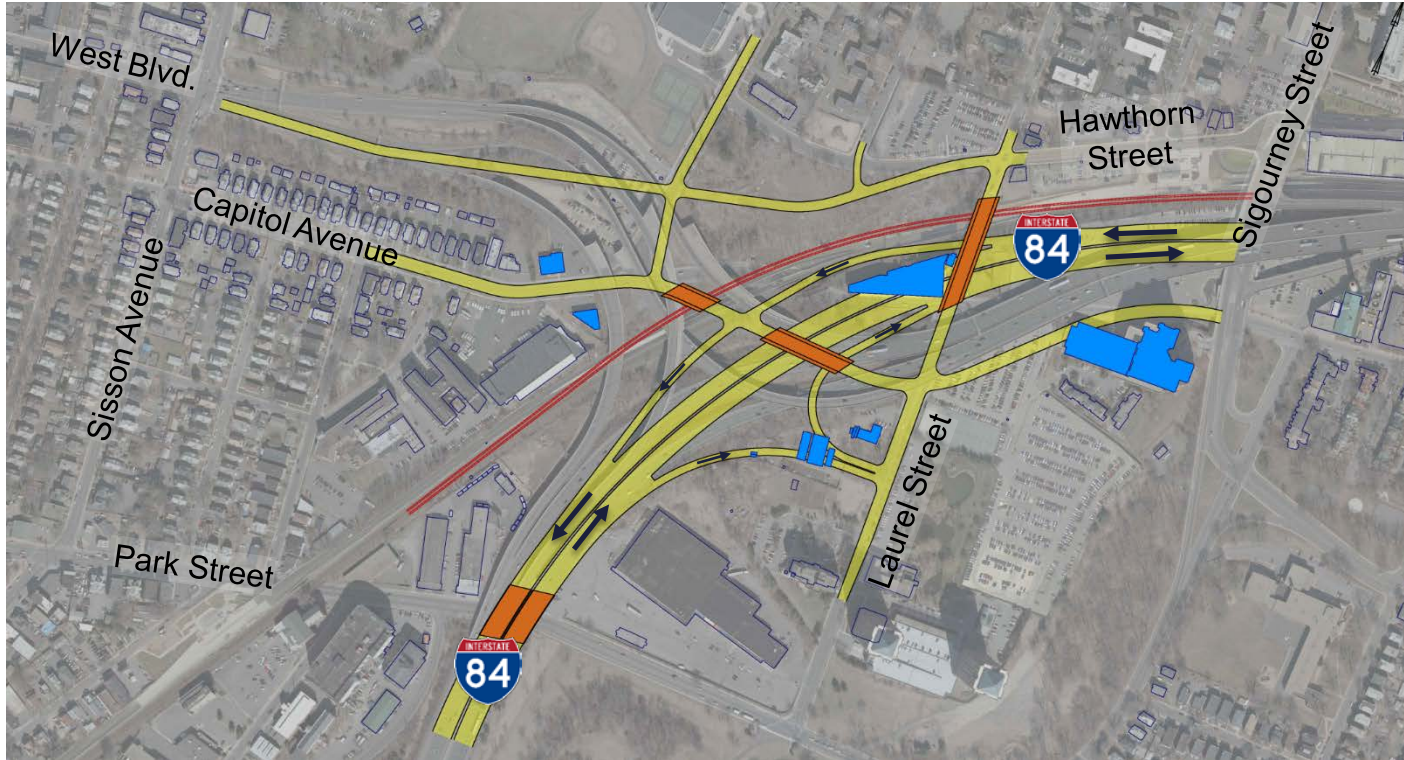

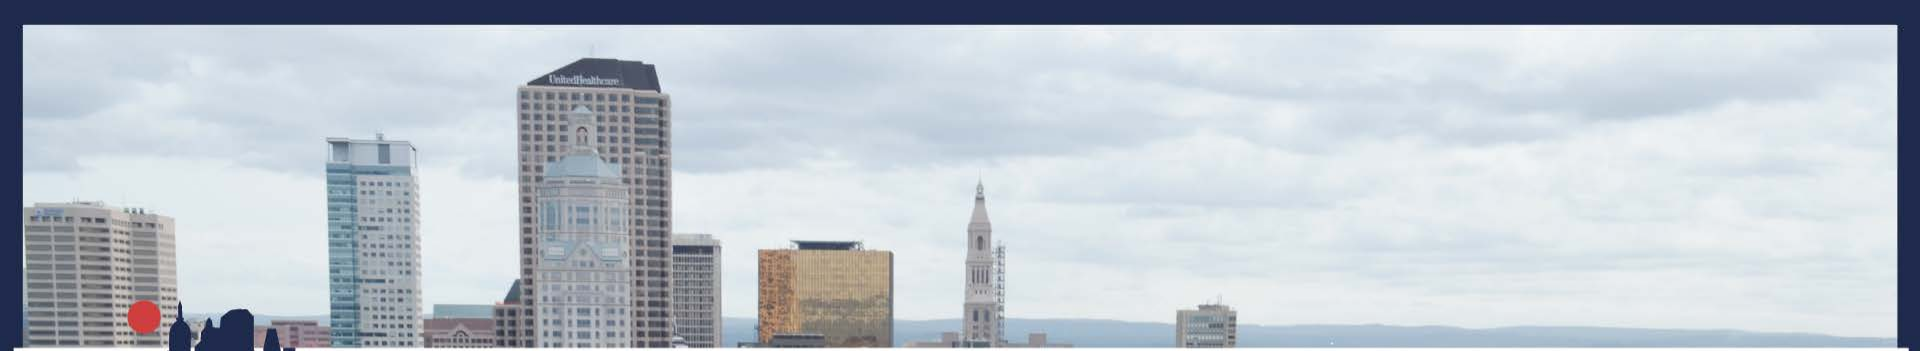

Western Half of Corridor

Western Interchange Option W3-3

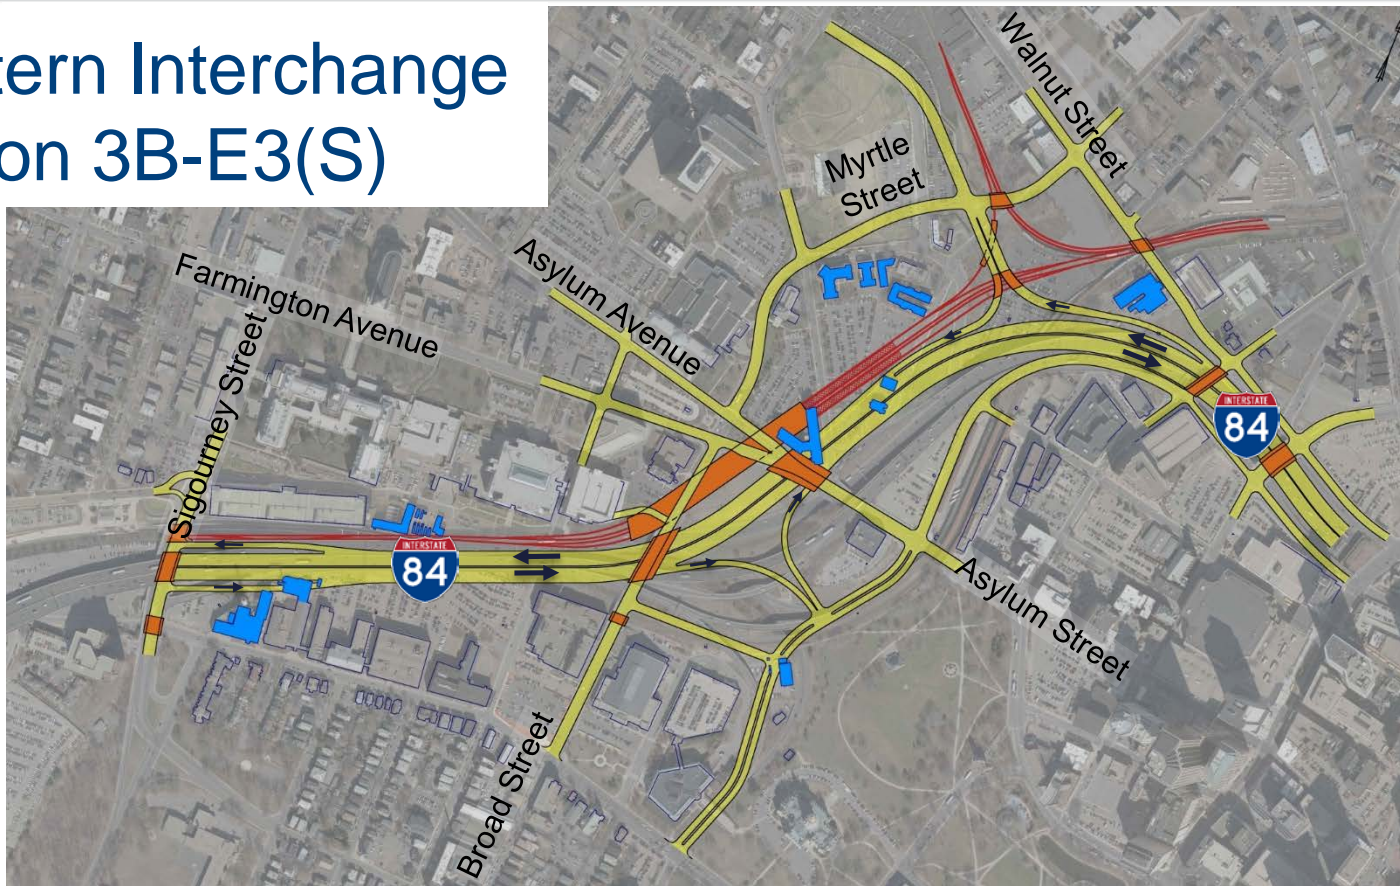

Eastern Half of Corridor

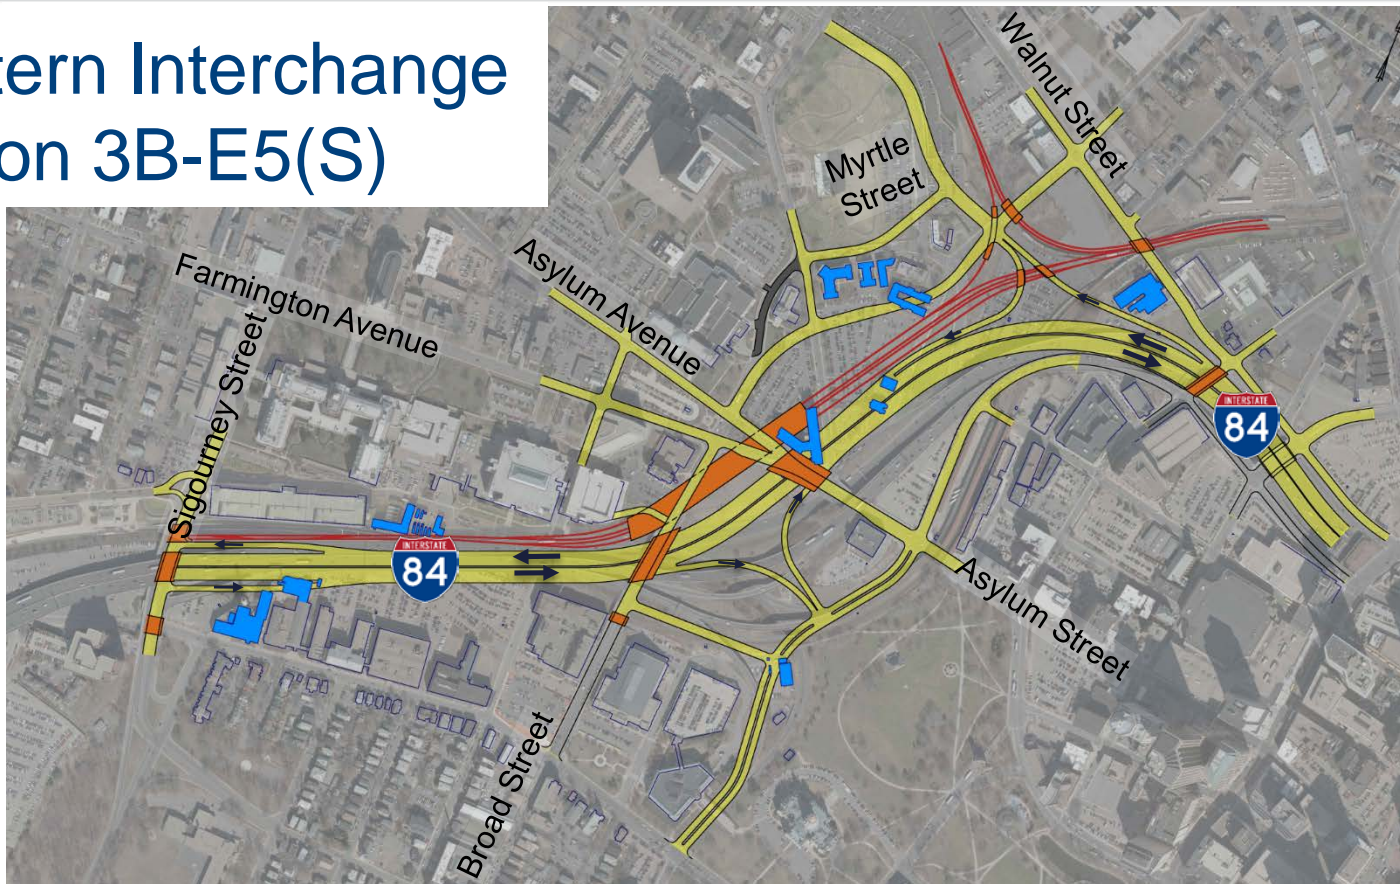

Eastern Interchange Option 3B-E3(S)

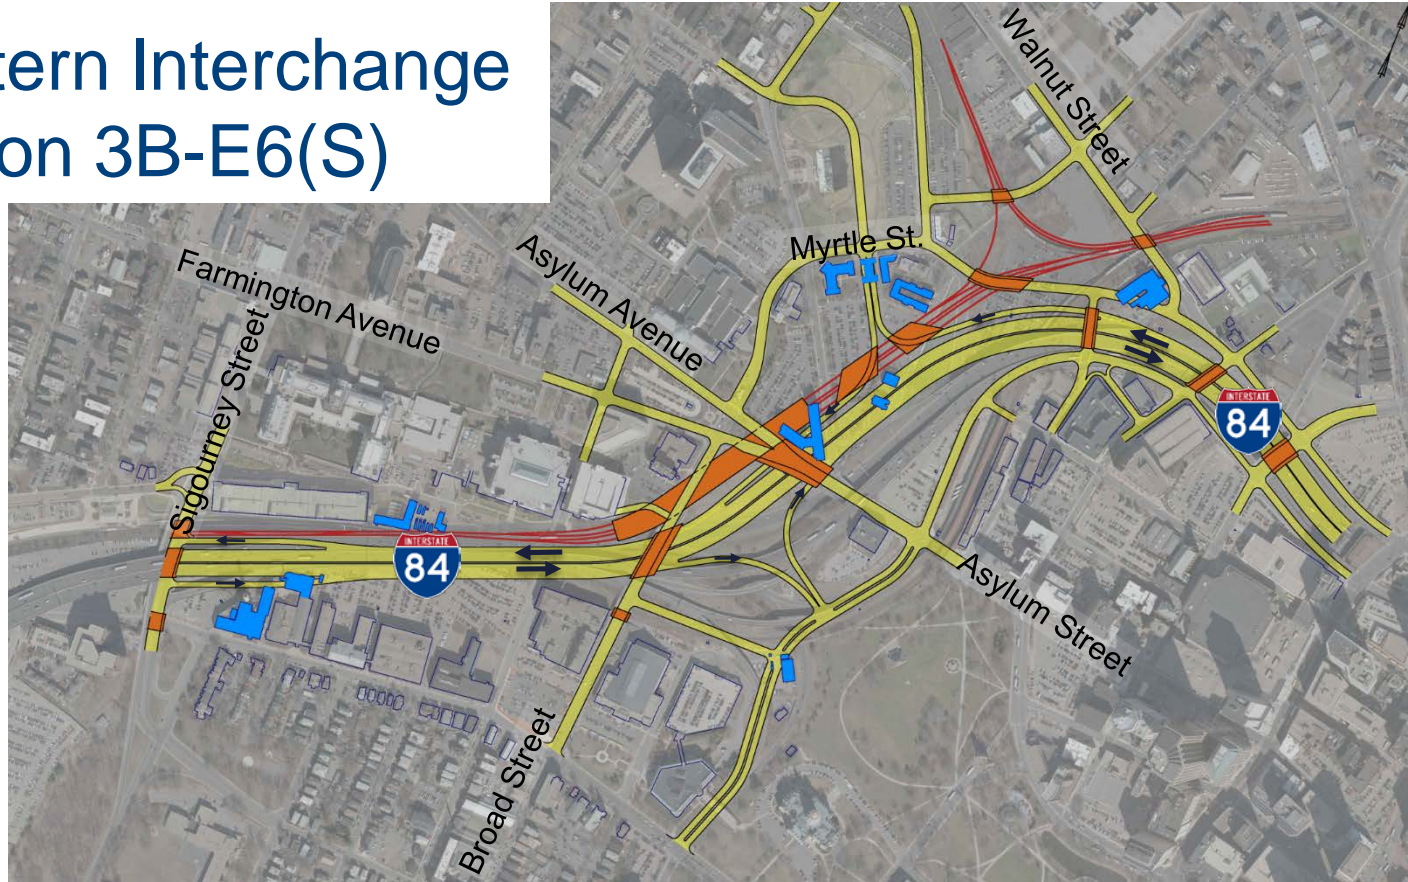

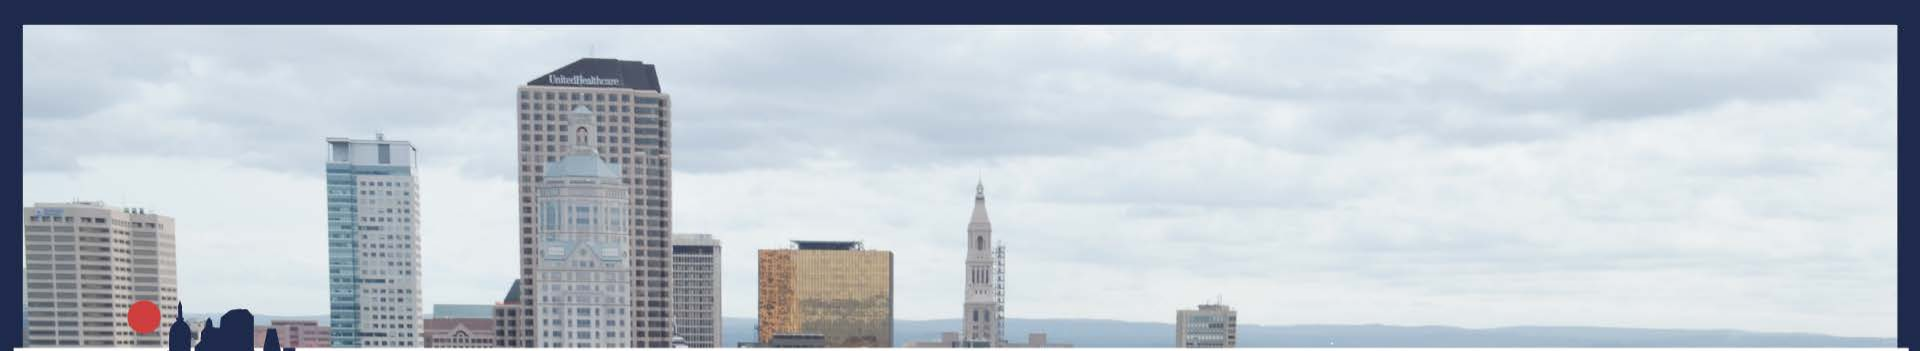

Eastern Interchange Option 3B-E5(S)

Guiding Principles for the Capital Gateway Master Plan

1. **Improve connectivity**

1. Establish an urban grid
2. Strengthen east-west connectivity
3. pedestrian and bike connections

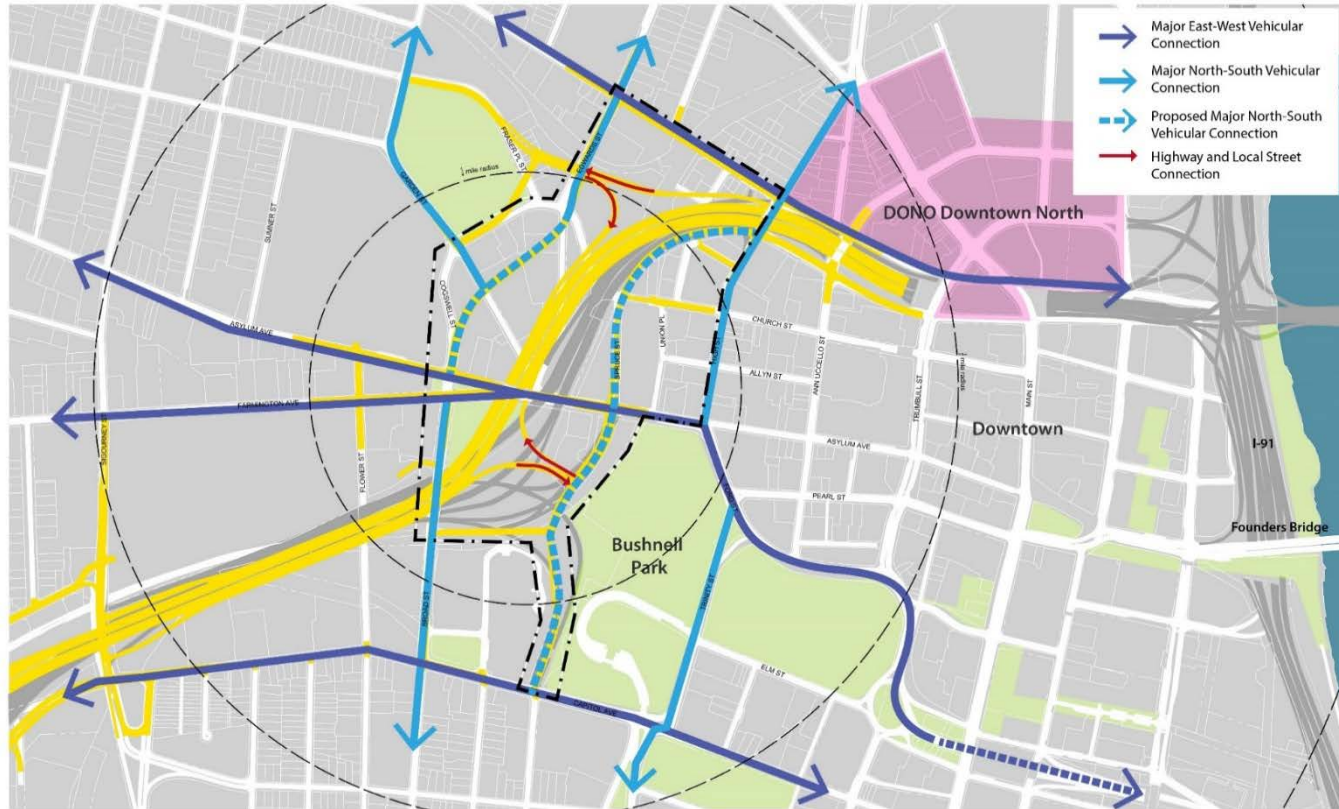

2. **Create a district and a strong sense of place**

1. Create clear economic anchors
2. Create places that will attract activity
3. Create a connected open space strategy

3. **Set the stage for economic development**

1. Optimize development potential
